

F6 PREMIUM FLOOR POLISH

WET LOOK FLOOR POLISH (25%)

- High quality 'wet look' shine for improved appearance
- Thermoplastic polymer protects the floor
- Builds good slip-resistance - no health and safety concerns

A high quality acrylic polymer-based metallised floor polish, which dries to a deep gloss and burnishes to an outstanding 'wet look' finish, with excellent slip resistance.

USES

An ultra modern polish, which offers gloss, ultimate durability, and the perfect base to clean, protect and prolong the life of a floor.

Suitable for use on non-porous floors, including; vinyl, thermoplastic, linoleum, rubber, asphalt, sealed wood, marble and terrazzo.

Possible areas of use include hospital corridors and wards, schools, offices, shops, airports, village halls, etc.

NOT for exterior (outside) use.

DIRECTIONS

PREPARATION: To obtain optimum results, it is important that thorough preparation of the floor is undertaken. The floor must be thoroughly cleaned to remove all dirt, grease and old polish films by using a quality polish remover such as F8. The floor must be well rinsed with water and allowed to dry before applying F6.

APPLICATION: Apply a thin film of F6 (undiluted) using a mop or polish applicator. Drying time is normally around 30 minutes. Apply a second coat and allow to dry. Coverage is dependent on the porosity of the floor covering. In general, 5 litres of F6 will cover approximately 300 square metres of floor.
