

L4A PRO MAX LAUNDRY WHITENER

TMH
Solutions
system hygiene specialists

OPTICAL BRIGHTENER BOOSTER AS OPTIONAL PROBLEM SOLVER

- Liquid booster for the improvement of whiteness levels.
- Suitable for all textile types.
- Can be used for all washing machine systems with all water hardness levels.
- Suitable for automatic dosing.

PROPERTIES

- The optimised optical brightener system improves the whiteness level of all textiles.
- Can be used at all water temperatures.
- A special blend of non-ionic surfactants improves the wetting effect, which gives a faster whiteness action.
- Not suitable for use in combination with chlorine bleach.

APPLICATION

- Liquid booster for the improvement of whiteness levels.
- Suitable for all textile types.
- Can be used for all washing machine systems with all water hardness levels.
- Suitable for automatic dosing.
- Do not use on (pastel) coloured textiles because an irreversible change of shade may occur.

USE INSTRUCTIONS

Recommended dosage:

1 - 3 ml/kg dry fabrics to add in the main wash

Do not use on pastel coloured textile wash processes.

COMPOSITION ACCORDING EC-DIRECTIVE

< 5% Non-ionic surfactants.

Also contains a preservation agent, solvent, dye and optical brighteners.

PHYSICO-CHEMICAL PROPERTIES

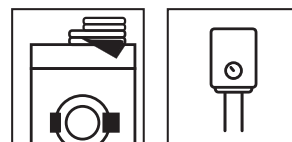

DENSITY	1.02 g/ml
PH (100%)	ca. 9
VISCOSITY	ca. 5 mPa.s

ENVIRONMENT

- The surfactants in L4A PRO MAX comply with the European Union Directive EU648/2004 on Biodegradability of Surfactants.
- Does not contain alkyl phenol ethoxylates, NTA, EDTA and phosphates.
- COD-value: 239.500 mg/l.

SKU:

CHL4A

STORAGE

Use above 5°C.
Store above 0°C.

SAFETY AND TRANSPORT

Not hazardous.

Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations.
